LETTER OF RECOMMENDATION

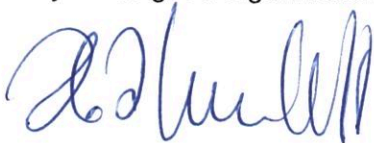

Zeljko Petrusic has worked for us as a freelance software developer for the past year. His responsibilities have included:

- MS SQL Database modeling and optimizing
- managing and developing SharePoint based solutions in .NET,
- developing for office automation in VBA and MS Access and
- keeping track of the development process.

During his time here he has had an amazing impact on the appearance of the software we are developing and source code documentation standards. Solution always appeared and behaved in highly professional manner when Zeljko took over. He was also capable of taking over half developed pre-alpha state prototypes almost immediately and a result was working solution prepared for sale to final customer.

Zeljko was highly respected by his co-workers for his willingness to help and share knowledge with anyone, anytime he could. He has been instrumental in helping two of entry apprentice in their way to finish their education process. He is well organized, diligent in his paperwork, easily reachable, and always on time.

Zeljko has good organizational potential. I would highly recommend him whenever needed.

H.J. Leonhardt
